Upgrade to new SPOT devices

Start Date: June 7, 2018
End Date: June 29, 2018
Nunavut-wide **60 sec**

The Government of Nunavut is upgrading to a new SPOT device. The Generation 1 SPOT units are being replaced by new Generation 3 units.

The Generation 3 SPOT units are active and are available to use in:

- Arctic Bay
- Baker Lake
- Cambridge Bay
- Cape Dorset
- Chesterfield Inlet
- Clyde River
- Coral Harbour
- Gjoa Haven
- Grise Fiord
- Pond Inlet
- Resolute Bay
- Whale Cove
- Iqaluit

As of June 22, 2018, old Generation 1 SPOT devices will be deactivated in these communities.

SPOT devices in remaining Nunavut communities will continue to be active and safe to use. They will be replaced at a later date.

SPOT units should always be returned after your trip. For more information, please contact the Nunavut Emergency Management office at 867-975-5322 or NEM@gov.nu.ca.
