Sealskin Purchase Program

Start Date: May 14, 2015 End Date: May 28, 2015 Territory-wide

60 sec

The Department of Environment has increased the purchase price for sealskins by 25% under the Sealskin Purchase Program.

The program supports Nunavut harvesters by offering guaranteed prices for cleaned and dried sealskins. Depending on the size and quality of each skin, prices now range from \$34 to \$75. Skins are valued and purchased by conservation officers at your local wildlife office.

The sale of sealskins is an important source of income for Nunavut hunters. It helps promote continued access to a renewable resource and contributes to food security in our communities.
