Public Service Announcement

Rankin Inlet water supply maintenance

Start Date: August 24, 2018

End Date: September 7, 2018

Rankin Inlet, Nunavut

30 sec

The Department of Community and Government Services (CGS) will proceed with maintenance of the water supply beginning August 27, 2018 in Rankin Inlet.

Maintenance will take approximately ten days. During this time water may become discoloured. If you notice discoloured water in your household or place of business, you should run your cold water taps until the water becomes clear.

CGS is committed to supporting municipalities in the delivery of safe, healthy water services, and regularly performs water quality tests. CGS and the Department of Health review the results and work jointly to monitor water quality and ensure the community always receives safe drinking water.
