Nunavummiut unite for World Mental Health Day

Start Date: October 10, 2018 End Date: October 10, 2018

Nunavut-wide 60 sec

The Department of Health encourages Nunavummiut to join people around the world in recognition of World Mental Health day on October 10.

World Mental Health Day is a reminder that mental health affects us all, no matter our place of birth, background or culture. It is a reminder for us to take care of ourselves and one another. A person's mental health can be affected at any time in their lives and it is important to know that everyone may express it in different ways.

Remember, you are not alone. If you or someone you know is struggling with a mental health problem, help is available. Reach out to a trusted friend, family member, teacher, guidance counsellor, or an Elder, and talk about how you feel and what you're going through. You can also go to your local Health Centre to speak with a mental health worker.
