

News Release

Eight new cases of COVID-19 in Nunavut

Iqaluit, Nunavut (December 4, 2020) – Today, Nunavut has a total of 51 active cases of COVID-19 and 155 recovered cases. Eight new cases have been identified in Arviat, bringing the community's number of active cases to 44.

Contact tracing in all impacted communities is ongoing and public health staff are monitoring everyone in isolation. As of December 3, Arviat testing has yielded 678 negative tests. Testing in Whale Cove yielded 125 negative tests. Monitoring in Sanikiluaq and Rankin Inlet continues.

Anyone who has reason to believe they have been exposed to COVID-19 is advised to call the COVID-hotline at 1-888-975-8601 between 10 a.m. and 6 p.m. EST, or notify their community health centre right away, and immediately isolate at home for 14 days. Please do not go to the health centre in person.

For all the latest information, including the numbers of recovered and active cases per community, go to:
