Gasoline Fuel Spill in Sanikiluaq - Update

Start Date: July 23, 2024
End Date: July 23, 2024
Nunavut-wide **45 sec**

Following the identification of a fuel spill in Sanikiluaq on July 22, 2024, the Department of Community and Government Services' Petroleum Products Division has proceeded with spill response and environmental experts have completed a site assessment.

The spill occurred within the containment area of the facility, and no fuel has been released outside of this controlled environment. Risk to the community remains minimal, however, residents and pets are advised to stay away from the tank farm containment site until further notice from authorities.

Public safety partners have been engaged and will continue to offer support to the community throughout the response period.

For further Information, please find a question and answers document accompanied with this announcement and on the Government of Nunavut website.
