Public Service Announcement

Nunavut Environment Week

Start Date: June 3, 2024
End Date: June 9, 2024
Nunavut-wide **30 sec**

The Department of Environment invites all Nunavummiut to celebrate Environment Week, June 3-9, 2024.

This week pushes us all to be a little more intentional with our daily activities by reminding us that they all contribute to an overall healthy environment.

Some of the things you can do include:

- Help keep our land and waters clean by picking up litter while berry picking, hunting, and fishing.
- Use energy wisely. Turn off electronics when not in use or use solar technologies that help conserve and reduce energy.
- Choose sustainable travel (hike, bike or walk) to reduce greenhouse gas emissions and air pollution.
- Refrain from idling your vehicles when not in use to reduce emissions and promote clean air.

Remember that small collective actions can have a significant impact on preserving our environment. Together, we can make a difference!

Nunavut Environment Week coincides with Canadian Environment Week, an annual event that encourages all Canadians to take action to help preserve, protect, and restore our environment.

The week kicks off with World Environment Day on June 3 and includes World Oceans Day on June 7, 2024.

As we celebrate Nunavut Environment Week, we would like to invite Nunavummiut to participate by emailing a photo of an activity that you do to help keep the environment

clean. You'll be entered into a draw for a chance to win one of two $500 gift certificates for Northmart/Northern stores.

Email your photo by June 14 to Marnie Kownirk at mkownirk2@gov.nu.ca. You must include a few sentences in your photo submission explaining how your activity helps keep the environment clean.

Winners will be contacted via email.

All photos and responses will become the property of the Government of Nunavut and may be used for promotion and publication purposes.
