

Public Service Announcement

Seeking contractor input on high construction costs in Nunavut

Start Date: October 15, 2024

End Date: November 11, 2024

Nunavut-wide

45 sec

The Department of Community and Government Services' (CGS) Infrastructure division is assessing the construction market in Nunavut to better understand the cost environment and what factors are leading to the current high inflation and volatility in construction costs. This is a high-level review of Canadian, Northern Canadian and Nunavut-specific construction market trends.

If you are a contractor who bids on larger projects (\$5 million or greater) or a construction consultant (architectural, engineering, cost estimating, etc.), CGS would like to meet with you.

CGS will use the information collected to improve its tendering, contracting and estimating practices and procedures.

To participate, please contact Scott Milton at SMilton@gov.nu.ca with your interest.
