Arviat TB screening clinic holiday pause

Start Date: **December 18, 2025**
End Date: **January 10, 2026**
Arviat, Nunavut **45 secs**

The Department of Health is advising Arviat residents that the tuberculosis (TB) screening clinic will temporarily pause services over the holiday period, beginning December 20, and will resume regular operations on January 12, 2026.

During this time, individuals who are experiencing signs or symptoms of TB are encouraged to contact the Arviat Health Centre to be assessed by a health-care provider and receive appropriate care.

The Department of Health remains committed to supporting communities through ongoing TB services and support. Additional information about TB, including symptoms, prevention and available supports, can be found on the Government of Nunavut website or by contacting your local health centre.

Everyone has a role to play in being strong and TB free. In the new year, encourage loved ones to get tested. It is important to support those seeking or receiving treatment, and to share accurate information to protect the health and well-being of the community.
