## Arviat community-focused TB screening clinic closing

**Start Date: March 3, 2026**
**End Date: March 31, 2026**
**Arviat, Nunavut** **50 sec**

The Department of Health advises Arviat residents that the community-focused tuberculosis (TB) screening clinic, which has been open since February 2025, will end on March 31, 2026. This is the final opportunity to get tested through this clinic to know your TB status.

Community members who complete TB testing by this date are eligible for a $100 gift card. Testing is quick, confidential, and free. Knowing your status helps protect you, your family, and the community.

Another way to support TB testing is through the upcoming PUBG TB Awareness Tournament in Arviat. Participants of this tournament and residents aged 13-35 who get tested will receive a ticket to enter the draw for a chance to win a PlayStation 5 and 5 Pro. Visit the community-focused screening clinic to learn more.

Community members who can’t get tested at the clinic before March 31 can still book a TB test by calling the Arviat health centre at 867-857-3100 for an appointment.

Thank you to the community of Arviat for working together, getting tested, and following the guidance of the Chief Public Health Officer. Your commitment has made a meaningful difference in keeping the community healthy.
